• Problem statement

College Students need a way to keep track of their shopping habits and purchases so that they can handle their money in a more efficient manner.

Ideas:

- A shopping list app that keeps track of regular purchases.

• 4 W's: Who is experiencing the problem?

- People who cannot keep track of their money and spend too much. Also college students who buy too much.

• What is the Problem?

- Overspending or improving your health and buying better quality foods.

• Where does the problem present itself?

- Everywhere people shop.

• Why does it matter?

- It is good to know what you buy to help with budgeting.
